with request for topical and urgent debate
pursuant to Rule 48 of the Rules of Procedure

on the negotiations on the Multifibre Arrangement

The European Parliament,

- having regard to the conduct by the Commission of the Multifibre Arrangement negotiations in Geneva,
 - having regard to the dangerous unemployment level in the Community,
 - having regard to its resolution of 7 April 1981,
1. Requests the Commission to press more resolutely than hitherto for the opening up of the markets (principle of reciprocity) at the negotiations on the extension of the Multifibre Arrangement;
 2. Calls on the Commission to take due account of the principle that imports should be regulated on the basis of the foreseeable trend of consumption within the Community;
 3. Insists that it is justifiable to increase imports only if it can be proved that consumption has risen in the category in question;
 4. Calls for the retention of the price clause and for its formulation to be improved;
 5. Requests the Commission to make it clear that it attaches great importance to compliance with the social rules set out in the ILO recommendations and conventions;
 6. Calls on the Commission to supply regular information on the progress of the negotiations on the Multifibre Arrangement;
 7. Instructs its President to forward this resolution to the Council and the Commission.
